

Physics of Biological Systems

Tuesday, 28th April 2015, 13:30-19:00

Francis Crick Institute, Lincoln's Inn Field Laboratory

For registration and abstract submission see
<http://physicsofbiologicalsystems.eventbrite.co.uk>

Physics of Biological Systems is an afternoon workshop designed to promote collaboration and networking for young investigators working at the interface of physics, mathematics and biology in the Francis Crick Institute and partner organisations.

We strongly encourage abstract submission for oral and poster presentations from junior researchers (post-docs, PhD students and permanent staff).

PROGRAMME

13:30 4x Post-doc and PhD led short-talks

14:30 Florian Markowetz (Cambridge) - Quantitative Cancer Biology

15:30 Break

16:00 4x Post-doc and PhD led short-talks

17:00 Ben Simons (Cambridge) - Dynamic stem cell heterogeneity

18:00 Poster presentations and drinks reception

19:00 End of conference

Abstract submission deadline: Friday, 17th April.
