

FILM Microscopy Day 2017

Tuesday June 27th, 9.30-17.30

SAFB-G34 (Sir Alexander Fleming Building), South Kensington Campus

Preliminary Programme

9:30 - 9:45 **Tony Magee: Welcome & latest FILM news**

9:45 - 10:30 **Andreas Bruckbauer:** *From microscopy basics to state of the art applications .*

10:30 - 11:00 **Stephen Rothery:** *Data Analysis in Fiji.*

11:00-11:30 *coffee & tea break*

11:30 - 12:00 **Debora Keller:** *PPMS, our new online booking system.*

12:00 - 12:30 **Microscopy Match-Maker:** *FILM users present their research performed in FILM through 5 min snapshot presentations.*

12:30 - 13:30 *sandwich lunch*

13:30 - 14:15 **David Gaboriau:** *High Content screening*

14:15 - 14:45 **Technobytes – 10min presentation from our sponsors:**

Paul McCormick, Leica microsystems, *Full Spectral Freedom for Multi-Colour, Deep Imaging experiments with SP8 DIVE'*

Gareth Bolitho, Stratech Scientific Ltd, *TBC*

14:45 - 15:30 **Cristina Lo Celso, Imperial College London:** *Imaging healthy and malignant haematopoiesis: active cells in a dynamic environment.*

15.30 - 16.00 *coffee & tea break*

Plenary Lecture

16:00 - 16:55 Michael Way, The Francis Crick Institute: *Using Vaccinia virus to understand signalling and cytoskeletal dynamics.*

16:55 - 17:00 **Tony Magee:** *Round-up.*

17:00 - 17:30 *The plenary lecture will be followed by drinks and nibbles*
