

Now Recruiting:

PhD Students and Postdoctoral Research Fellows in the Herston Biofabrication Institute

We are recruiting highly motivated candidates to work in a dynamic and growing research team focussing on the development of patient-specific biofabrication technologies using 3D scanning, modelling and printing. Generous scholarships are available and projects will be aligned with one of our clinical research streams and co-supervised by clinicians from :

- Orthopaedics
- Vascular
- Skin burns and trauma
- Urology

Commencing in 2019, these positions will be based at the Herston Biofabrication Institute, a brand new institute based at the Herston Precinct. The Herston Biofabrication Institute is a partnership between Metro North Hospital and Health Service and QUT. Candidates are encouraged to submit a CV and Cover Letter by:

PhD Candidates:

Monday, 24th September, 2018

Research Fellows:

Monday, 1st October, 2018
