

Imaging Flow Cytometry and the ISX

High Speed, High Content Analysis of Cells in Flow

Date: 21st September 2017

Time: 11-12pm

Location: Imperial College Union, SW7 2BB

Room number/name: Room 120, Sir Alexander Fleming Building

Seminar Topics

To include the following applications:

Cell Signaling

Internalisation and phagocytosis

Cell-cell interaction

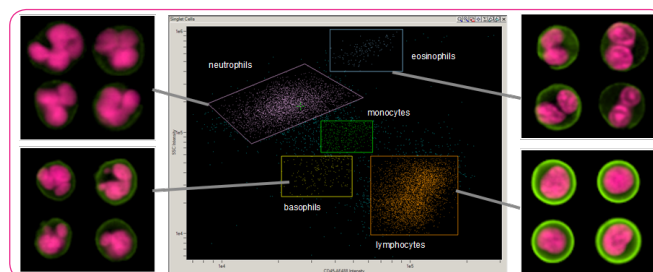

Stem cell biology

Microbiology

Parasitology

Microparticle quantification

Crisper gene corrections
